

# Diversity and Inclusion Program

At athenahealth, we believe that investing in diversity and inclusion leads to better business results for our company, customers, and patient populations. The Marketplace is committed to celebrating the communities we work and live in and creating valuable partnerships with minority-owned, woman-owned, LGBTQ-owned, disability-owned, veteran-owned, small disadvantaged-owned and historically underutilized businesses. We know this is a cause our customers are also passionate about, which is why we created our Diversity and Inclusion Partnership Program to celebrate and recognize our diverse Partners.

Below is the initial list of qualified Partners and their diversity classification, which have been self-identified. We will continue to add new Partners to the program throughout the year. If you'd like to connect with or learn more about the partners below, please complete the "Contact Partner" form on their respective Marketplace page, which also includes their Diversity & Inclusion badge(s).
